

External Provider Policy Summary

This document provides a summary of key policies, including changes and new policies, which have been included in the new Open Arms Veterans & Families Counselling (Open Arms) online Policy Hub. The summary has been written specifically for External Providers; including Outreach Program Counsellors (OPCs), Group Program Facilitators and Clinical Supervisors.

Any questions regarding the content of the policies, and their interface with the Outreach Provider Notes, should be discussed with your existing Outreach Program Regional Liaison point of contact, before being directed (if required) to the Open Arms Policy and Quality Team at openarmspolicy@dva.gov.au

Feedback on individual policies can also be provided directly through the Policy Hub via the *'Provide feedback on this policy document'* link which is located in the top right hand corner of every policy and procedure page on the Policy Hub. Feedback submitted via this link will automatically identify the policy that is being discussed.

A summary of all user feedback provided on the policies can be found in the [Policy Feedback Log](#) which can be accessed via the [Policy Hub landing page](#). The link to the Policy Feedback Log is currently located at the bottom of the Page Tree on the left side of the landing page.

All External Providers are encouraged to read this summary, review relevant policies as part of Open Arms business, discuss the policies with regional contacts as required, and provide feedback through appropriate channels.
